## The school of Japanese language in Siem Reap

Today is 25 April. I'm fine, thank you. I went to the school of Japanese language in Siem Reap with two of my classmate ,and Ms.Kunikage Miyuki who teaches Japanese at there today. Student's have varios age. I saw that all of them had studied very hardlyl. For them , to study English, Japanese is conect to find good job and to make better their life. I supposed heart which want to study is very pure. Also I was moved that their teacher, Miyuki had teachd very well ,hardly. Thank you very much. Tommorrow, we'll go to voder's town ,Poipet through bad road by bus.

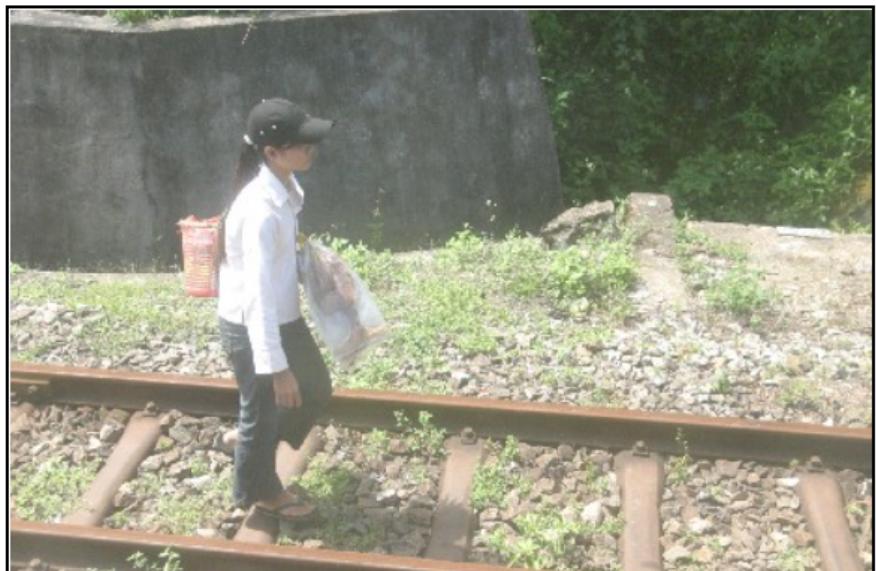

## Photo Diary in Viet Nam

Today is 4/14. I'm fine now. But I have a little diareea. I say to myself "Don't mind of a little thing". So, happily I have not had a trouble about my health outside. But we have a hot on here already in April. I have usually heavy two or three cameras and tools inside of my baggage. I have no problem for having this heavy, but in this hot, maybe about 35-37 degrees on sunshine, go around the city with taking photos is very tired. Sugar value in my blood is less and less at once. So already I had drank many coke, pepsi and orange juece. At here, I have not another method. In this June, terrible tempulature waiting for us in India. These day, I thought that people in hot life is very great, and having strong spirit. I'm sorry of this wrong sentence on today, too. Tomorrow is for Kingdom of cambodia by bus. See you about several days later!!! ( ^ \_ ^ @ )

## Wu-tai 3/28,3/29 --Country of Native Taiwan : Rukai--

Today is 4/1. I am in Net Cafe in Taipei. I am fine now. But I can not use Japanese on computer here. Pardon me my different English.

Wu-tai is attractive country. It is about 3 hours from Takao. I was able to go there using train,bus and taxi with friend. Wu-tai is beyond the mountains. So the fog appears often and it is very amazing.

I am able to spend comfortable for two days. The host family is very kind. The host,Mr.Si-Sei-Fu cans speak Japanese very well. He is 81 years old. Before the world second war,Taiwan was territory of Japan. Therefore he was let to study Japanese.

Now I am thinking , happiness of have visiting this country. At this country , I moved that people of Rukai believe thire lifestyle important.
